Using AirMedia on Windows

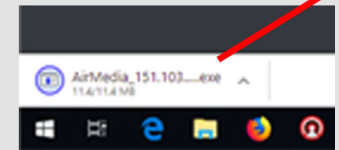

Open a web browser and type in the IP address shown on screen
When loaded, hit Start Presenting

If the App is already installed, wait for it to open. If the App is now downloaded, hit the Windows box to start

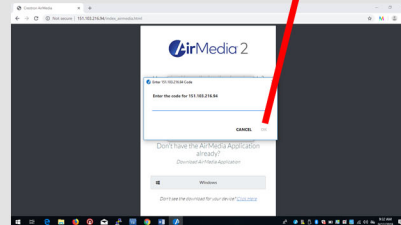

The download will start and show up on the bottom of the screen. When done, Click on it

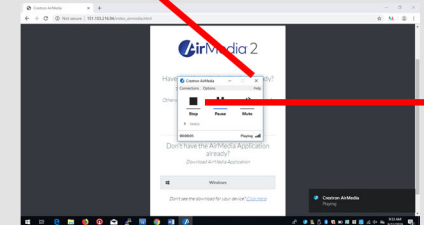

Once the App opens, a box will appear in the middle of the screen

Once the App is fully loaded, type in the code that appears on the screen, hit OK

Stop and Pause will light up in the box. When done presenting, hit Stop and hit the X in the upper right

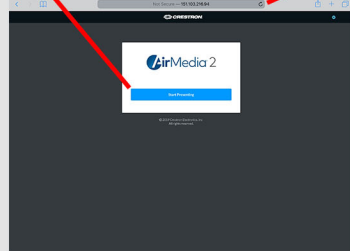

Using Airmedia on an iPad

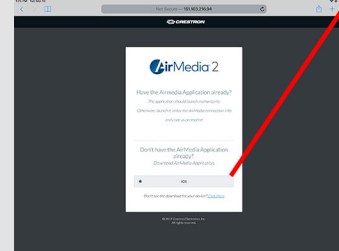

Open a web browser on the iPad

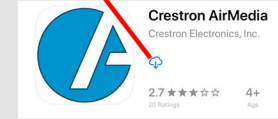

Type the IP address on the screen into the web browser
Hit Start Presenting

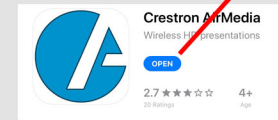

A menu will appear saying to wait or to download the App. To download, hit IOS

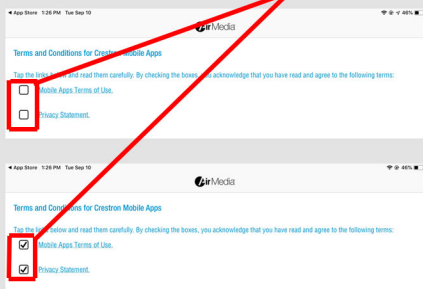

The app store will open
Hit download

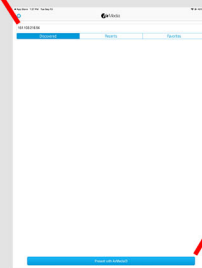

When done, hit Open

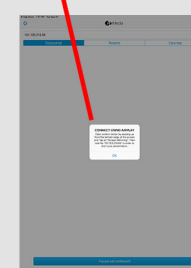

On first open, accept the terms and conditions

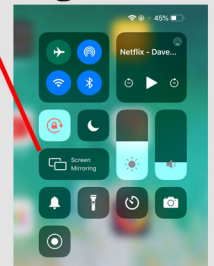

Type the IP address into space provided. Hit Present with AirMedia

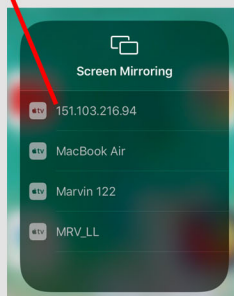

When prompted hit OK

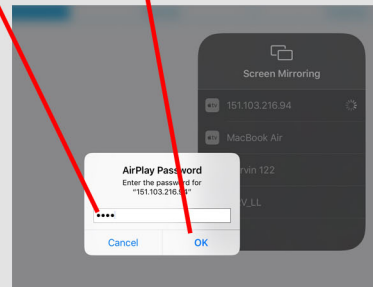

Swipe down from the upper right. Hit screen Mirroring

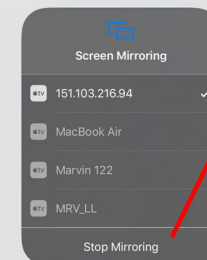

In Screen Mirroring, select the IP address

Type in the 4 digit code from the screen, hit OK

When done, go back to Screen Mirroring, hit Stop Mirroring

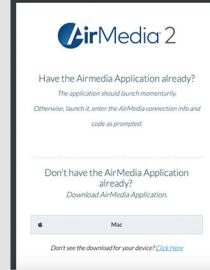

How to open AirMedia on a Mac

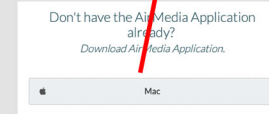

Type the IP address that appears on the screen into a web browser
When loaded press Start Presenting

A box will appear and saying the App will open or to download the App

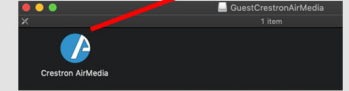

To download the App select Mac

In the downloads AirMedia will appear, select the download

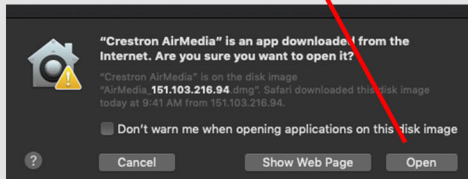

Once the AirMedia is downloaded, click the Air media Icon

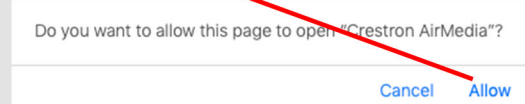

AirMedia only needs to be downloaded once

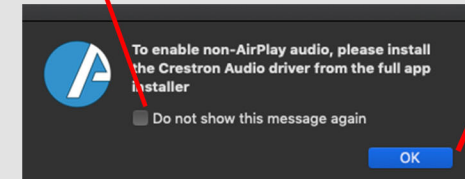

After the first time opening AirMedia, it will immediately ask to open, click OPEN

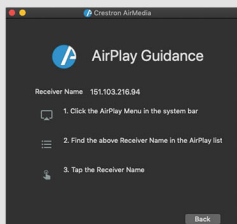

Any time after the first open, AirMedia will ask to allow opening click Allow, then click Open when asked

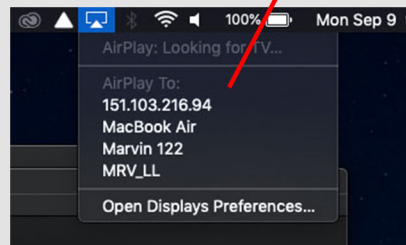

When ask to install Audio Driver, check Do Not Show Again, then OK

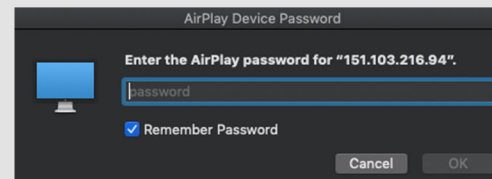

After clicking open, instructions will appear on the screen

In the AirPlay menu, select the IP address

When prompted, type in the 4 digit code that shows on the screen

When done presenting go back to the AirPlay menu and select Turn Off
