

## HEALTH SCIENCES SUMMER CAMP

Entering grades 9 and 10

### IS YOUR YOUNG HIGH SCHOOLER INTERESTED IN A HEALTH SCIENCE CAREER?

Think about enrolling them in a new week-long camp that will expose them to a variety of in-demand health science careers. Campers will interact with college faculty and students and use the same simulation labs our Health Science students train in. This camp meets both on campus and at our Jordan Road location. A complete schedule will be provided before camp begins. Course fee includes a \$40 materials fee.

71293 Mon. - Fri., 9 a.m. - 3 p.m., July 22 - 26 \$265

#### Participants will learn basic clinical skills:

- taking vital signs
- performing EKGs
- drawing blood from manikins
- ventilating pig lungs
- exploring the hands-on use of dental instruments

The camp experience will explore several Hudson Valley Community College Health Science programs:

- Dental Hygiene
- Nursing
- Surgical Technology
- Respiratory Care
- Paramedic
- Polysomnography
- Community Health Navigator
- Radiologic Technology

*This is a great introduction to what could become your child's lifetime career. Students will also earn CPR/AED certification.*

## NMR WORKSHOP FOR HIGH SCHOOL CHEMISTRY STUDENTS

FREE!

Are you a high school student interested in chemistry and possibly pursuing it as a career? Hudson Valley Community College is offering a free workshop to high school students who have completed at least one year of Regents Chemistry or taken AP Chemistry at their high school. This workshop will give students the opportunity to learn about Nuclear Magnetic Resonance Spectroscopy and work on a bench top spectrometer in the science building's analytical lab. There is no cost to participate, so do not delay in registering. Space is limited to 12 students. Students must wear long pants and sneakers or closed shoes in the lab.
