2019 KIDSCAMPUS ON

REGISTRATION BEGINS MARCH 12

at TEC-SMART in Malta
Hudson Valley Community College has been sponsoring children’s programs for more than 30 years. From enrichment to athletics, from technology to theater and circus, we have something that will appeal to your child’s interest. Last year we enrolled over 950 students in our programs.

In the pages that follow you will find information on the Athletic Camps, Circus Theatricks, Summer Academy, Technology Enrichment and Theater Programs.

NEW CAMPS FOR 2019:
Advanced Robotics
Balance Camp
Battle Royale
Eureka! Invention Camp
Everything Breakfast
Find Your Inner Unicorn
I Love New York
International Delights
Minute To Win It
NASA Academy of Space Explorers
Secret Agent Lab

Now offering a Health Sciences camp and a Nuclear Magnetic Resonance Spectroscopy workshop for high school students.
Athletic camps are sponsored by the Office of Community and Professional Education in partnership with the college’s Athletic Department.

The 2019 Summer Athletic Camps will provide an opportunity for boys and girls to acquire knowledge, develop interest, learn techniques and improve skills in a variety of sports.

All camps are under the direction of a head coach with a sufficient number of assistant coaches to provide low coach-to-camper ratios. Campers will be divided into groups according to age and ability.

**FEES**

**Full-day Programs**
- All Sports $175
- Basketball $165
- Soccer $165

**Half-day Programs**
- Advanced Golf $175
- Adventure $95
- Amazing Athletes $115
- Dodgeball $95
- Football $95
- Golf $150
- Lacrosse $95
- Softball $95
- Tennis $95
- Volleyball $95

**DROP-OFF/PICK-UP**
Campers must be dropped off and picked up at the McDonough Sports Complex lobby. Children should not be dropped off prior to posted start times. There will not be supervision available until that time.

Camps will end promptly at the designated time. Coaches will be available for 15 minutes after their individual camp ends. Children must be picked up by that time, unless enrolled in extended care, and parents must come inside to sign out their child. All campers must provide their own transportation.

**LUNCH** (Full-day campers only)
Campers are expected to bring their own lunch. Limited snacks and beverages will be available for purchase at Hudson Valley Community College. Refrigeration is not available. All campers should bring a labeled water bottle daily.

**INSURANCE**
Every camper is covered by an excess accident insurance plan. It provides excess medical and accidental death protection during camp participation and also while traveling to and from Hudson Valley Community College.

**EXTENDED HOURS FOR ATHLETIC CAMP PROGRAMS**

**HALF-DAY CAMPS**
(Except golf, due to off-site meetings)
Morning extended care is available from 8 - 9 a.m. for an additional charge of $10/week. There is no afternoon extended care for half-day camps unless your child is registered in an afternoon Summer Academy program.

If you need a full-day program for your child, please check our Summer Academy offerings beginning on page 9.

Students who sign up for a morning Athletic Camp and afternoon Summer Academy class must pay the $10 fee for supervised lunch (lunch is NOT provided). Camp staff will transport children to the Viking Child Care Center (DCC) for lunch and the afternoon program.

**FULL-DAY CAMPS**
Morning extended care is available from 8 - 9 a.m. for an additional charge of $10/week. Afternoon extended care is available from 3 - 4 p.m. for an additional charge of $10/week. Extended care will be held in the McDonough Field House.

ADVENTURE
AGES: 8-16
The adventure program is a series of activities designed to challenge participants on both an individual and group basis. Presented by trained instructors, the program encourages teamwork, cooperation, focus and responsibility. Adventure program campers work together to successfully maneuver through obstacles and creatively solve challenges.
Equipment: workout clothes and sneakers.
70172 $95
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Matthew Fuda, Head Coach

AMAZING ATHLETES
AGES: 4-6
Amazing Athletes is a developmental sports and fitness program that teaches children the basic fundamentals and mechanics of nine different sports: baseball, basketball, football, golf, hockey, lacrosse, soccer, tennis and volleyball. Our program incorporates exercises for gross motor development, hand-eye coordination, cardiovascular fitness, speed and agility and stretching and muscle tone. The sports will be divided up throughout the week. The children are able to learn and practice the basic fundamentals of each sport through game-based activities.
71012 $115
Mon. - Fri., 9 a.m. - Noon
July 29 - Aug. 2
Jessica Perrott, Head Coach

ALL SPORTS
AGES: 7-14
This camp provides participants with a unique opportunity to experience a variety of camps in one setting. Throughout the week, various sports will be featured. Activities may include: soccer, tennis, basketball, wiffleball, badminton, weight training, team building and brain games. Campers will attend Camp Day at The ValleyCats on Tuesday, July 9. Equipment: workout clothes and sneakers.
70094 $175
Mon. - Fri., 9 a.m. - 3 p.m.
July 8 - 12
Dylan Larkin, Head Coach

DODGEBALL
AGES: 10-14
This camp will provide participants with the opportunity to improve on their dodging, catching and throwing skills. Different rules, skills and techniques of the game will be taught throughout the camp. Participants will be playing many different versions of dodgeball, which will lead up to a tournament at the end of the week. Equipment needed: workout clothes and sneakers.
70651 $95
Mon. - Fri., 9 a.m. - Noon
July 15 - 19
Dylan Larkin, Head Coach

FULL-DAY CAMP

BASKETBALL
AGES: 7-16
Both weeks co-ed
This camp includes instruction in the fundamental skills and basic rules of basketball; daily drills to improve agility, coordination and ball handling; instructional and game films. Equipment: workout clothes and sneakers.
70093 $165
Mon. - Fri., 9 a.m. - 3 p.m.
July 8 - 12
70185 $95
Mon. - Fri., 9 a.m. - 3 p.m.
July 22 - 26
Andrew Ferris, Head Coach
ATHLETIC CAMPS

GOLF
AGES: 9-16
This camp includes instruction in the fundamentals of the game, including grip, stance, swing, rules, terminology and etiquette. Equipment: bag and clubs (driver, fairway wood or hybrids, 5i, 7i, 9i, wedge and putter). Camp will meet three days at Route Fore Golf Center and two days at a local course.
70169 $150
Mon. - Fri., 9 a.m. - Noon
July 8 - 12
70602
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Alyssa Ruggerio, Head Coach
This camp meets off-site each day.
A complete schedule will be provided before camp begins.

ADVANCED GOLF
AGES: 11-17
Designed for golfers who have the fundamentals of the full swing, chopping and putting and want to learn to refine these skills. We will learn advanced skills and how to manage those skills on the course. This camp is great for golfers who are either playing on their school team or are trying out for their school team. Golfers should be able to hit a club between 100-150 yards.
This camp will focus on advanced skill development and playing on the course. We will be walking so the campers will carry their bags or have a push cart. Equipment: All campers should have their own clubs. We will be at a golf course each day, so dress accordingly. Please bring water and snacks to be carried in your golf bag.
70904 $175
Mon. - Fri., 8:30 a.m. - Noon
July 29 - August 2
Alyssa Ruggerio, Head Coach
This camp meets off-site each day.
A complete schedule will be provided before camp begins.

LACROSSE (GIRLS)
AGES: 8-14
Instruction in lacrosse fundamentals, including strategies for playing offensive and defensive aspects of the game, will be covered. Students will participate in activities to improve stick skills, agility and coordination while learning good sportsmanship and having fun with friends! Equipment: lacrosse stick, goggles, mouth guard, and cleats preferred; sneakers acceptable.
70788 $95
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Derek Minkler, Head Coach

SOCcer
AGES: 6-16
This camp includes instruction in the technique and tactics of soccer. Younger groups will focus on technical skill development, while older groups will concentrate on decision-making under pressure and tactical awareness. Equipment: workout clothes, cleats, sneakers, shin guards and soccer ball (optional).
70101 $165
Mon. - Fri., 9 a.m. - 3 p.m.
July 15 - 19
70102
Mon. - Fri., 9 a.m. - 3 p.m.
July 29 - August 2
Jarrett Farrell, Head Coach

SOFTBALL
AGES: 8-15
Instruction in this camp will emphasize batting, base-running, throwing, fielding, pitching and catching. Equipment: glove, sneakers, workout clothes, cleats (optional) and bat (optional).
70104 $95
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Alicia Ozols, Head Coach

TENNIS
AGES: 8-15
Instruction in this camp will emphasize the development of ground strokes, net play and serving. Individualized instruction is provided for all levels of play, from beginner to advanced. Equipment: racquet, workout clothes and tennis shoes.
70090 $95
Mon. - Fri., 9 a.m. - Noon
July 8 - 12
70091
Mon. - Fri., 9 a.m. - Noon
July 15 - 19
70092
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Derek Minkler, Head Coach

V O LLEYB A L L
AGES: 9-15
The beginning player will learn to pass, set, dig, block, spike and serve in this camp. Focus will be on basic skill improvement and fun activities centered around the game of volleyball. Equipment: workout clothes and sneakers. Suggested: knee pads.
70103 $95
Mon. - Fri., 9 a.m. - Noon
July 15 - 19
Kelsey Wilson, Head Coach

FULL-DAY CAMPS
CIRCUS THEATRICKS
AGES 6-15
We are pleased to have Sean (Seano) Fagan back at Hudson Valley Community College this summer for four weeks of Circus Theatricks. Whether you’ve experienced fun with Seano in the past or you’re new to the circus world, this class is for you. Beginning campers will be introduced to the art of juggling, tumbling, partner acrobatics, magic and the secrets and skills of circus clowns. Returning campers, get ready to be challenged and further your skills in the circus arts.

TUITION: $265
per one-week session
The instructional component of these programs will run from 9 a.m. - 3 p.m. with a half hour for lunch each day.

Our counseling staff will provide supervision of participants from 8 - 9 a.m. and 3 - 4 p.m. each day for those students who arrive early and stay late. Students should bring their own lunch and snack each day. Refrigeration is not available.

Session 1
70049
Mon. - Fri., 8 a.m. - 4 p.m.
July 22 - 26

Session 2
70050
Mon. - Fri., 8 a.m. - 4 p.m.
July 29 - August 2

Session 3
70051
Mon. - Fri., 8 a.m. - 4 p.m.
August 5 - 9

Session 4
70600
Mon. - Fri., 8 a.m. - 4 p.m.
August 12 - 16

Held in Maureen Stapleton Theatre,
First Floor, Siek Campus Center

REGISTER FOR ALL FOUR SESSIONS
71013 $1,000
Mon. - Fri., 8 a.m. - 4 p.m.
July 22 - August 16
THEATER WORKSHOP
AGES 8-15
Do you love to act, sing, dance or tell jokes? Do you see yourself behind the scenes, as a director, stage manager or props designer?

If you answered “yes” to any of these questions, the Youth Theater Workshop is for you! The workshop will take you through the entire process of producing a musical theater piece, from creating the characters, writing the script and developing songs, to rehearsing and performing in the final production, which will take place on the last day of the workshop. No experience is required, just a desire to jump in and put on a show!

Our program can accommodate both new and experienced performers. The group will be split early in the first week based on experience level.

Tuition: $335
70097
Mon. - Fri., 8 a.m. - 4 p.m.
July 1 - 12, closed 7/4
Maureen Stapleton Theatre
First Floor, Siek Campus Center

The instructional component of these programs will run from 9 a.m. - 3 p.m. with a half hour for lunch each day. The performance will be on held on Friday, July 12.

Our counseling staff will provide supervision of participants from 8 - 9 a.m. and 3 - 4 p.m. each day for those students who arrive early and stay late. Students should bring their own lunch and snack each day. Refrigeration is not available.

Program instructors:
Liv Cummins and Sandy McKnight

Liv is a performer, musical theater dramatist, songwriter and educator. Her musicals have been performed at theaters and universities across the country, including a recent production of her musical "Vanishing Point," which explores the lives of three legendary women of the ‘20s, at Seattle Public Theater in early 2018. She is on the faculty at Lesley University, teaching drama and creative writing.

Sandy is a producer, writer, musician, songwriter and teacher who has written more than 1000 songs and produced more than 300 recordings. He has written scripts for VH1’s “Top Ten Countdown” as well as pilot scripts for a new TV series. He serves as head writer of a live sketch comedy series, Saturday Night Liv (hosted by Liv Cummins), and co-produces an annual live music show, 518 Songfest at the Egg, with EXIT 97.7 (WEXT).
MIDDLE SCHOOL PROGRAM AT BETHLEHEM MIDDLE SCHOOL

MIDDLE SCHOOL PROGRAM FOR STUDENTS ENTERING GRADES 5-8

TUITION: $265
70096
July 8 - 12, 8:30 a.m. - 3 p.m.

Campers participate in all four modules throughout the week.

Bethlehem Middle School is located at 332 Kenwood Avenue in Delmar.

STEAM CHALLENGES!
Who can build the most powerful catapult, the strongest bridge, the fastest zip line motion toy, the most accurate marshmallow launcher or the tallest tower using everyday household items? In this course you will work collaboratively using STEAM (science, technology, engineering, art and mathematics) skills to solve real-world engineering problems. Although the instructor will be there to guide and support, you are really the ones who will be running the show while collecting data, planning, creating and improving your original designs.

Todd Tyler, Instructor

THE SCIENCE AND TECHNOLOGY OF FOOD
The food we eat has become more flavorful, colorful and packed full of energy as a result of combining science and technology. This class will take a look at some of the hidden surprises found in food - from polymers to bubbles to DNA. We will look at different ways to test food, taste food and definitely play with our food. Different food preparation techniques and cooking skills will also be explored. And of course, we will learn how to really count calories in all of that food. If you are hungry for knowledge or just looking for some homemade gummy bears, this is the class to take.

Cheri White, Instructor

3D PRINTING
Have you ever wondered how objects are designed and 3D printed? Would you believe that you could actually draw a product on the computer and have it produced right before your eyes? This course will allow students to take on the role of an inventor and see their designs come to life. Students will design their projects while learning 3D computer modeling essentials. Students will design and print two activities during the week of camp.

Andrew Cancio, Instructor

UP UP AND AWAY (Rocketry with a splash)
Water rockets are one of the most exciting hands-on science activities around. In this program, students will convert empty plastic bottles into high-flying rockets. A rocket can be defined simply as “a chamber enclosing gas under pressure.” A small opening allows the air to escape, causing thrust. Students will have the opportunity to design, construct and launch a water-powered rocket of their very own and discover scientific principles like Newton’s laws, acceleration, and thrust.

Tim Connelly, Instructor
MIDDLE SCHOOL PROGRAM AT TEC-SMART (MALTA)

MIDDLE SCHOOL PROGRAM FOR STUDENTS ENTERING GRADES 6-8

TUITION: $275
70383
July 29 - August 2, 8:30 a.m. - 3 p.m.

HVCC TEC-SMART Campus
345 Hermes Road, Malta

This program is comprised of six modules. Campers participate in all of these throughout the week.

Module 1 - Air Power
Module 2 - Blast off with Rocket Design
Module 3 - On Target
Module 4 - Sun and Surf
Module 5 - Video Production/Stop Animation
Module 6 - Video Game and App Design

AIR POWER
Design, build and race a dragster powered by air. These small lightweight cars will blow you away as they cruise down the track. This hands-on module begins with an introduction to forces such as aerodynamics and friction as you create your design. You will then learn to use basic woodworking tools to create your car from a wood blank. At completion of the build we will launch and race your dragsters in a double-elimination bracket-style race.
Gregory Garrison, Instructor

BLAST OFF WITH ROCKET DESIGN
Students will be introduced to the basic principles of the design and function of solid fuel rockets by building and launching their own rocket! We use a class C motor for our rockets, which will be built from scratch and launched at the end of the week. Students will learn about pursuing rocket design as a future career and also about the National Rocketry Challenge.
Jeffrey Gargano, Instructor

ON TARGET
Can you create a machine to repeatedly hit a target? Can you modify your machine for different circumstances such as elevation or distance? Let’s find out! You will be tasked with building a golf ball catapult to try to do those challenges and many more.
Gregory Garrison, Instructor

SUN AND SURF
Even though our camp is not on a lake or at the beach, we will create our own miniature version of a regatta! In another action-packed design activity, we will design and build solar powered boats that will race along in our mobile water raceway.
Gregory Garrison, Instructor

TECHNOLOGY ENRICHMENT

VIDEO PRODUCTION/STOP ANIMATION
In this production twist students will learn how to produce a stop animation video using Legos or anything else of their choice. Students will also learn how Chromakey, aka “Green Screening” works and combine it with their film for a video production masterpiece. Students will learn how to video edit by laying down their own video, photo, and audio tracks.
Jeffrey Gargano, Instructor

VIDEO GAME AND APP DESIGN
Where does the next great idea in gaming or app design come from? You! Learn how to design, test, and publish your own video game. This session will focus more on building and testing a game that you design rather than the coding behind it. If time permits we will also explore the world of app inventors. Some of the best games and apps have been designed by students just like you!
Jeffrey Gargano, Instructor
Summer Academy is enrichment education for kids entering grades 1-8 (unless otherwise noted). On these pages you will find a variety of classes to interest and engage your child.

Programs for elementary, middle and high school students are scheduled so your child can attend in the morning, afternoon or both.

Summer Academy classes are held in the college’s Viking Child Care Center (basement level) and Williams Hall. All students should report to the Summer Academy office in the Viking Child Care Center, Room B06, on the first day to check in and for room assignments. If there is any change, you will be notified before camp begins. Some situations require a different drop off location. Courses are taught by local elementary, middle and high school teachers in addition to Hudson Valley Community College faculty.

**LUNCH SUPERVISION - $10/week**

All students staying on campus for both the morning and afternoon sessions must register for the supervised lunch hour from noon to 1 p.m. Students must register for the appropriate date section. Lunch is not provided.

BOARD GAME MANIA
Who doesn’t love board games? Our group will spend the week playing some of our favorite board games as well as some classic board games you may not have ever played! This week you can relax, let loose, and have fun with some friendly board game competition. But that’s not all – on top of playing our favorite games for the week, you will also have the opportunity to create your own board game to bring home with you. Course fee includes a $10 materials fee.
Mon. - Fri., 9 a.m. - Noon
August 5 - 9
Jaclyn Duncan, Instructor

CODE EXPLORERS
For curious young minds who want to take the first steps into the world of programming. Student explorers will use their creativity to solve a series of web-based coding challenges. Each lesson builds fluency in essential digital skills needed for the future. At the end of the class, students will receive access to the interactive learning platform to continue their coding journey at home. Students will work in pairs or teams for most of the program. Course fee includes $10 materials fee. Requires student computer access. Offered in cooperation with Black Rocket Production, LLC.
Mon. - Fri., 9 a.m. - Noon
August 12 - 16
Jaclyn Duncan, Instructor

CLAWS, CODES AND CONSTELLATIONS
Discover how to send secret messages to your friends using special codes! Children learn how to talk with numbers, just like computers, and create their very own code crackers! In the afternoon, they become detectives and use their mad science observational skills to discover the writer of the “Mystery Letter.”
Mon. - Fri., 9 a.m. - Noon
July 15 - 19
Mad Science of the Capital District, Instructor

DRAWING 101
Do you love to doodle and draw? Drawing 101 is the place for you! We will use step-by-step drawing to learn how to draw people, animals, scenery and much more! From sketches to detailed pictures, we will unveil the wonderful world of art. Bring your artistic mind to create drawings on your own and with partners, too! Course fee includes a $10 materials fee.
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Melissa Farley, Instructor

EUREKA! INVENTION CAMP
In this camp, children will overcome a series of challenges using basic materials, simple machines, tips from famous inventors, and, most importantly of all, their minds. With a little bit of ingenuity, children will create catapults and forts, construct working light sticks to take home, and assemble a set of circuits with batteries and light bulbs. While Thomas Edison said, “invention is 10% inspiration and 90% perspiration,” this camp is 100% fun!
Mon. - Fri., 1 - 4 p.m.
July 8 - 12
Mad Science of the Capital District, Instructor

FOOD ART
Do you love art? How about food? Ever thought about combining the two? Well this is the class for you! In “Food Art,” we will take our favorite vegetables, fruits and snacks and get creative. You’ll learn how to use food to make animals, plants, faces, houses and more. We’ll have daily food challenges, too. Bring your appetite and artistic minds! Course fee includes a $15 materials fee.
Mon. - Fri., 1 - 4 p.m.
August 5 - 9
Melissa Farley, Instructor
LEGO LOVERS: A BUILDING ADVENTURE
Do you love LEGOs? Look no further... this course is perfect for you! You will spend the week with other LEGO fans, and build your hearts out. Be challenged with different LEGO building ideas, participate in contests, and share ideas with your classmates. Come join the fun with this classic toy. Students are asked to bring a gallon sized Ziploc bag of LEGOs with them each day, if possible. Please label your bag. Course fee includes a $15 materials fee.
70865 $110
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Erin Degnan, Instructor

PUPPET AND MASK-MAKING ADVENTURE
Campers will adventure into the world of imagination! We’ll start out the week by investigating types of puppets/masks and dive into a bit of history. Each day will be an exploration of fun, culture and expression. A variety of materials will be used to add creativity, emotion and lift into every aspect of this fun-filled week of adventure. Course fee includes a $20 materials fee.
71267 $115
Mon. - Fri., 9 a.m. - Noon
July 8 - 12
Amy Bailey, Instructor

SHARK WEEK
Shark Week is finally here! Join us for a captivating week full of the ocean’s most feared creatures. In this camp we will learn about some species of sharks while we create shark crafts and play silly shark games. Get ready for a sharktastic week! Course fee includes a $20 materials fee.
71263 $115
Mon. - Fri., 1 - 4 p.m.
July 22 - 26
Kristin Komazenski, Instructor

SPACE CAMP
This camp is out of this world! We’ll have tons of fun learning about our solar system and the astronauts who explore it. Learn about the history of space travel as well as exciting recent discoveries. Investigate the science behind how objects in our solar system move. Learn about planets, stars, constellations and other fascinating elements of outer space. We will design constellations, make erupting moon rocks and demonstrate the phases of the moon with Oreos. Course fee includes a $10 materials fee.
70970 $105
Mon. - Fri., 1 - 4 p.m.
July 15 - 19
Alicia Ozols, Instructor

UPCYCLING: THE ART OF TURNING TRASH TO TREASURE
In a world of disposable everything, we are going to make art, toys and spectacularly mysterious items from recycled materials. All you need is an active imagination and a willingness to see beyond every day uses. We will build and create stellar items that are both useful and whimsical. Get ready for paint, glue, and unexplored mediums. We will have guided activities and total self-create days as well. Course fee includes a $15 materials fee.
71268 $110
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Melissa Elwell-Holmes, Instructor

SECRET AGENT LAB
Suspects, schematics and sleuths! We will connect the dots using science to help solve a crime in this hands-on investigation of the science of sleuthing. Campers will uncover the science involved in evidence gathering, analysis and fingerprinting detection. By the end of the week, you will enhance your observation skills and learn how to use spy equipment.
71269 $130
Mon. - Fri., 1 - 4 p.m.
August 12 - 16
Mad Science of the Capital District, Instructor
ADVANCED ROBOTICS
In this class, we’ll learn to program a robot to overcome daily class challenges using visual and text-based programming. You will see firsthand how your program translates into action as you attempt to control your robot sensors and maneuver around obstacles. With your teammates you will apply different coding concepts while using the scientific method to formulate, observe, experiment, test, and modify your robot. Students will work in teams for most of the program. No prior experience is required. Course fee includes $20 materials fee.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.
71270 $140
Mon. - Fri., 9 a.m. - Noon
August 5 - 9
Andrew Cancio, Instructor

AMERICAN GIRL DOLLS I
The American Girl Dolls represent a vibrant and enjoyable way to embrace history. Each day we will cover a different doll, including the food and entertainment of her era. We will have a chance to celebrate history through live-action activities. Each girl may bring her dolls, but that is not necessary. Course fee includes a $15 materials fee.

70861 $110
Mon. - Fri., 9 a.m. - Noon
July 15 - 19
Melissa Elwell-Holmes, Instructor

AMERICAN GIRL DOLLS II
ENTERING GRADES 3 - 6
The American Girl Dolls are not only cherished friends, they are windows to a time period in history. In this second camp, we will meet five new American Girls and immerse ourselves in the time period of each doll. Each day will include the history, music, food, games, and crafts of her time period. So get ready to dance, craft, sing, play, and learn. The last day will, of course, be a grand finale surprise! Course fee includes a $15 materials fee.

70972 $110
Mon. - Fri., 1 - 4 p.m.
August 5 - 9
Melissa Elwell-Holmes, Instructor

BATTLE ROYALE: MAKE YOUR FIRST FORTNITE® STYLE VIDEO GAME
Fans of Fortnite, we need you! Instead of playing the game, design your own. Using a professional 3D game development software, build levels and assets inspired by popular battle royale games like Fortnite. This course includes cartoonish action and battle sequences. Student-created games will be available on a password-protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.
70977 $110
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Lindsay Gibson, Instructor

BOARD GAME MANIA
Who doesn’t love board games? Our group will spend the week playing some of our favorite board games as well as some classic board games you may not have ever played! This week you can relax, let loose, and have fun with some friendly board game competition, but that’s not all. On top of playing our favorite games for the week, you will also have the opportunity to create your own board game to bring home with you! Course fee includes a $10 materials fee.

71290 $105
Mon. - Fri., 1 - 4 p.m.
August 5 - 9
Jaclyn Duncan, Instructor

BREAKOUT DETECTIVES
Have you heard of Breakout EDU? What about Mystery Rooms? We will learn to work cooperatively with peers and solve mysteries and puzzles. Work on digital breakouts, breakout boxes, and even make-your-own mysteries! Course fee includes a $15 materials fee.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.
71274 $129
Mon. - Fri., 1 - 4 p.m.
July 15 - 19
Kyle Armstrong, Instructor

CODE BREAKERS
Calling all future coders, programmers, and designers! Learn the basics of coding languages like HTML, JavaScript and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a Silicon Valley CEO or the high school student who just made $1 million dollars for programming in her bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program. Returning students can create more advanced projects that build on previous years.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.
70872 $129
Mon. - Fri., 1 - 4 p.m.
August 12 - 16
Jaclyn Duncan, Instructor
Food Art
Do you love art? How about food? Ever thought about combining the two? Well this is the class for you! In Food Art, we will take our favorite vegetables, fruits and snacks and get creative! You’ll learn how to use food to make animals, plants, faces, houses and more! We’ll have daily food challenges, too! Bring your appetite and artistic minds! Course fee includes a $15 materials fee.
70984 $110
Mon. - Fri., 9 a.m. - Noon
August 5 - 9
Melissa Gordon, Instructor

Disney Descendants Camp
Bad is the new good! Spend the week travelling between the Isle of the Lost and Auradon with your favorite Descendants characters: Mal, Evie, Uma, Carlos, Ben and many more! We will read excerpts from books, create screenplays and act out our favorite scenes while learning some wicked dance moves to favorite songs. We’ll also create some troubling crafts and play some villainous games. Come join the fun and get ready to be rotten to the core! Course fee includes a $10 materials fee.
71102 $105
Mon. - Fri., 9 a.m. - Noon
August 5 - 9
Tracy Henry, Instructor

ELA and Reading Review
We will review ELA skills and strategies in various engaging and fun ways. You and your fellow campers will read texts, play engaging games, and participate in discussions to practice strategies and strengthen our reading skills. This is a great opportunity for students to reinforce their skills and become stronger readers during the summer months! Course fee includes $5 materials fee.
70969 $99
Mon. - Fri., 1 - 4 p.m.
July 29 - August 2
Lindsey Winterbourne, Instructor

Eureka! Invention Camp
In this camp, children will overcome a series of challenges using basic materials, simple machines, tips from famous inventors, and, most importantly of all, their minds. With a little bit of ingenuity, children will create catapults and forts, construct working light sticks to take home, and assemble a set of circuits with batteries and light bulbs. While Thomas Edison said, “invention is 10% inspiration and 90% perspiration,” this camp is 100% fun!
71271 $130
Mon. - Fri., 9 a.m. - Noon
August 12 - 16
Mad Science of the Capital District, Instructor

Experience a Print Adventure
Do you love to create designs? Dive into the print world! Create your own personal story using a variety of printmaking materials and techniques. We will start our printing adventure by creating one type of print and continue with a different print adventure each day. As we move throughout the week, each day’s print adventure will be matted and then grouped together at week’s end to complete a hanging banner of prints. Course fee includes a $15 materials fee.
71109 $110
Mon. - Fri., 9 a.m. - Noon
August 5 - 9
Melissa Gordon, Instructor

Find Your Inner Unicorn!
We will be crafting with our favorite mysterious animal. We will making unicorn spa jars, ornaments, hats and more! We will also play unicorn games while enjoying unicorn snacks and milkshakes. Course fee includes $20 materials fee.
71273 $115
Mon. - Fri., 9 a.m. - Noon
August 12 - 16
Brianna Marchese, Instructor

Hip-Hop Dance Camp
Do you enjoy dancing? Come to hip-hop dance camp to learn stretches, technique and dance routines with your friends. Work together in teams to create your own dances to some of your favorite songs.
70968 $95
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Kristin Komazenski, Instructor
I LOVE NEW YORK
Let’s explore our amazing state this week as we dig deep into New York’s history, accolades and traditions. In this camp, we will be playing games and creating crafts that showcase our great state of New York. Course fee includes $20 materials fee.

71274 $115
Mon. - Fri., 9 a.m. - Noon
July 8 - 12
Kristin Komazenski, Instructor

LEGO BUILDING ACADEMY
Attention, master builders! Come join the fun of building LEGOs with your classmates and challenging each other during building contests. Share your LEGO building skills with your classmates during this fun and exciting week, which will be all about LEGOs!

Students are asked to bring a gallon sized Ziploc bag full of LEGOs, if possible, labeled with their name. Course fee includes a $15 materials fee.

70986 $110
Mon. - Fri., 1 - 4 p.m.
July 22 - 26
Erin Degnan, Instructor

MAKE YOUR FIRST 3D VIDEO GAME!
In this Black Rocket classic, you will go well beyond the limitations of the traditional 2D game design classes and create an immersive 3D world. Students will learn the physics behind 3D games, explore beginner event scripting, level design, controlling the flow of gameplay, and storytelling. Student created games will be available on a password protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.

71291 $135
Mon. - Fri., 1 - 4 p.m.
July 8-12
Jaclyn Duncan, Instructor

MINUTE TO WIN IT
Join us as we play and create our own minute to win it games! In this exciting camp, we will work together in teams to create minute to win it games and come up with strategies to beat our opponents. Using household items and a timer, we will play games to beat the clock. You can use what we come up with in camp to take these games home to challenge your friends and family! Course fee includes a $20 materials fee.

71275 $115
Mon. - Fri., 1 - 4 p.m.
July 15 - 19
Kristin Komazenski, Instructor

PYTHON PROGRAMMERS
Want to learn the world’s fastest growing programming language favored by Google, NASA, YouTube, and the CIA? Learn how to code with Python to create engaging apps and games. Each lesson takes you step-by-step on a programming path that will let you challenge friends with fun content you create from start to finish! Students will work in pairs or teams for most of the program. Returning students can create more advanced projects that build on previous years. Course fee includes a $10 materials fee.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.

71100 $105
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Lindsey Winterbourne, Instructor

ROBLOX® MAKERS
Unlock the power of ROBLOX® Studio, the world creation tool used by real-world ROBLOX® developers! Learn how to build 3D models and create an adventure in your ROBLOX® world. Bring characters to life with unique animations you design. Student-created projects will be available on a password protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program.

Requires student computer access. Offered in cooperation with Black Rocket Productions, LLC.

71094 $129
Mon. - Fri., 9 a.m. - Noon

Jaclyn Duncan, Instructor

STEM CHALLENGES
We’ll learn about different science and engineering concepts through fun, engaging, hands-on activities. Join us to learn how to cooperate with others by working as a team in order to achieve an end goal. You will be given a challenge, and teams will need to plan and create a design in order to complete the task successfully. The challenges will be open ended and will encourage creativity and exploration! Course fee includes a $10 materials fee.

Requires student computer access.

71110 $105
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Lindsey Winterbourne, Instructor

TIE-DYE FUN
Tie-dye isn’t just for t-shirts anymore! We discover new items to tie-dye and how to create more than just the traditional spiral tie-dye pattern. We will create a variety of fun tie-dye crafts composed of all different materials. Course fee includes a $20 materials fee.

70654 $115
Mon. - Fri., 1 - 4 p.m.
July 29 - August 2
Alexandra Omecinsky, Instructor
WHAT’S COOKIN’?

AMERICAN GIRL - NOW WE ARE COOKING!
Entering grades 3 - 8
Have you ever wondered how the American Girls prepared meals? We are going to find out! We will be making homemade butter, molded in real molds from 1887-1913. We will be making homemade cheese, bread and pretzels. We will take a culinary journey from the past to the present. We will explore foods from all over the planet from France to Hawaii and beyond. We will cook, we will learn and, as always, we will have fun doing our American Girl thing! Course fee includes a $15 materials fee.

CUPCAKE WARS
In this fun, hands-on course, we will have the chance to explore a variety of different types of cupcake recipes. We will start off learning how to make different types of batters and frostings. Then, students will learn how to pair flavors and decorate cupcakes. The finale will be when students compete to see who makes the best cupcake! Course fee includes a $15 materials fee.

DESSERT IMPOSTERS
Who says chefs can’t be tricky? Get ready to make desserts that are masquerading as real savory foods. Pizza, hamburgers, french fries and more will be crafted into deceitful sweets that are bound to trick your taste buds. Grab your apron as we prepare to make some fake-out foods that will have everyone’s mouth watering! Course fee includes a $15 materials fee.

COOKIE CRAZE
Let’s go crazy for cookies! In this class, we will be baking some of our favorites like chocolate chips, sugar cookies and even Granny’s oatmeal cookies. We will also be exploring cookies from around the world, from Italy to Mexico to Turkey. And just when you think it couldn’t get any better, we will also make ice cream cookie sandwiches. This will all lead to a final cookie challenge on Friday with a “Cookie-Off.” This week, we will all become cookie monsters. Course fee includes a $15 materials fee.

INTERNATIONAL DELIGHTS
Come along with us on our edible journey across the world. Each day campers learn how to make sweet and savory treats from different countries. We will try new foods and discover new favorites. In place of passports, campers will create an international cookbook to take home to share with family and friends. Course fee includes $20 materials fee.

EVERYTHING BREAKFAST
In this fun, hands-on course, students will learn how to make a large variety of breakfast meals. We will discuss how breakfast is an important way to begin the day and explore the many different types of breakfast options. Students will leave with each recipe we create throughout the week! Course fee includes $22 materials fee.

NEW!

PLENTY OF PIZZAS
Mangia! Mangia! Who says we can’t have a pizza party every day? Put down the DiGiorno because this week we be creating a variety of pizzas. Traditional margherita is a must, don’t forget about pepperoni, and if you don’t like the meat, white with broccoli is for you! In this class we will break all the pizza rules, especially with dessert and breakfast pizza pies that will make your mouth water. Join this class and become a pizza connoisseur! Course fee includes a $20 materials fee.
ADVANCED ROBOTICS
In this class we will learn to program a robot to overcome daily challenges using visual and text-based programming. You will see firsthand how your program translates into action as you attempt to control your robot sensors and maneuver around obstacles. With your teammates, you will apply different coding concepts while using the scientific method to formulate, observe, experiment, test, and modify your robot. Students will work in teams for most of the program. No prior experience is required. Course fee includes $20 materials fee.

July 15 - 19
Kyle Armstrong, Instructor

BEST OF PINTEREST
Have you ever scrolled through Pinterest and admired all the intriguing crafts? Campers will have more fun creating new Pinterest crafts and putting a new spin on traditional crafts. Campers will make amazing canvas wall hangings, creative bracelets, mason jar crafts and lavish cups are just some of the many Pinterest inspired crafts campers will make. Campers get to transform ordinary items into extraordinary masterpieces. If you love to craft and be creative this is the camp for you. Course fee includes $20 materials fee.
71283 $115
Mon. - Fri., 9 a.m. - Noon
July 22 - 26
Alexandra Omecinsky, Instructor
CREATIVE UPCYCLED CRAFTS
In this awesome class, students will take learning into their own hands as they create crafts from a variety of products. Supplies will include but are not limited to: bottles, beads, paper ribbons, bells, cans, corks and more. Students are encouraged to bring in supplies of their own to make amazing creations! Course fee includes a $25 materials fee.
71091 $119
Mon. - Fri., 9 a.m. - Noon
August 12 - 16
Tracy Henry, Instructor

FORENSICS CRIME SCENE II
ENTERING GRADES 6 - 9
Forensics II will be a more science-based approach to forensics. We will use math and science to determine the trajectory of blood spatter and use science to test saliva on various surfaces to catch a “killer.” We will learn more in-depth investigation techniques. The week will culminate in solving a crime with our newly-learned crime scene techniques. Course fee includes a $20 materials fee. Pre-requisite: Forensics I.
70156 $115
Mon. - Fri., 1 - 4 p.m.
July 29 - August 2
Melissa Elwell-Holmes, Instructor

B Rivology - LEGO CAMP
Step into the shoes of an engineer! Using LEGO® bricks, campers take part in fun, physically active games based on daily themes, and build different engineering-themed projects each day. They will explore engineering fields and participate in collaborative challenges to solve real-world problems while using critical thinking, cooperation and creative problem-solving skills to test and improve creations.
71284 $130
Mon. - Fri., 9 a.m - Noon
August 5 - 9
Mad Science of the Capital District, Instructor

FOOD SCIENCE (CHEMISTRY)
Who says you can’t play with your food? In this class, we will explore food chemistry on the most basic level, performing fun experiments using chemical reactions with common kitchen ingredients. Put on your goggles, grab your gloves and tie your apron; it’s time to channel our inner Alton Brown! Course fee includes a $20 materials fee.
71288 $115
Mon. - Fri., 1 - 4 p.m.
August 12 - 16

CUPCAKE WARS
In this fun, hands-on course, we will have the chance to explore a variety of different types of cupcake recipes. We will start off learning how to make different types of batters and frostings. Then, students will learn how to pair flavors and decorate cupcakes. The finale will be when students compete to see who makes the best cupcake! Course fee includes a $22 materials fee.
70895 $120
Mon. - Fri., 1 - 4 p.m.
July 8 - 12
Tracy Henry, Instructor

DESSERT IMPOSTERS
Who says chefs can’t be tricky? Get ready to make desserts that are masquerading as real savory foods. Pizza, hamburgers, french fries and more will be crafted into deceitful sweets that are bound to trick your taste buds. Grab your apron as we prepare to make some fake-out foods that will have everyone’s mouth watering! Course fee includes a $15 materials fee.
71103 $110
Mon. - Fri., 1 - 4 p.m.
July 22 - 26
Brianna Marchese, Instructor

EVERYTHING BREAKFAST
In this fun, hands-on course, students will learn how to make a large variety of breakfast meals. We will discuss how breakfast is an important way to begin the day and explore the many different types of breakfast options. Students will leave with each recipe we create throughout the week! Course fee includes $22 materials fee.
71279 $120
Mon. - Fri., 9 a.m. - Noon
July 29 - August 2
Tracy Henry, Instructor

INTERNATIONAL DELIGHTS
Come along with us on our edible journey across the world. Each day campers learn how to make sweet and savory treats from different countries. We will travel to different continents, where we will try new foods and discover new favorites. In place of passports, campers will create an international cookbook to take home to share with family and friends. Course fee includes $20 materials fee.
71281 $115
Mon. - Fri., 1 - 4 p.m.
August 12 - 16
Alexandra Omecinsky, Instructor

IRON CHEF: HUDSON VALLEY
Step into Kitchen Stadium at Hudson Valley and put your cooking skills to the test! You and your fellow chefs will compete against each other to see who can create the best dish with fun surprises along the way. Look out for the secret ingredients and perhaps a culinary curveball! Course fee includes a $15 materials fee.
71104 $110
Mon. - Fri., 1 - 4 p.m.
July 15 - 19
Brianna Marchese, Instructor
NMR Workshop for High School Chemistry Students

Are you a high school student interested in chemistry and possibly pursuing it as a career? Hudson Valley Community College is offering a free workshop to high school students who have completed at least one year of Regents Chemistry or taken AP Chemistry at their high school. This workshop will give students the opportunity to learn about Nuclear Magnetic Resonance Spectroscopy and work on a benchtop spectrometer in the science building’s analytical lab. There is no cost to participate, so do not delay in registering. Space is limited to 12 students. Students must wear long pants and sneakers or closed shoes in the lab.

71241 FREE Tues., July 9, 9:30 a.m. - Noon Erin Rennells, Instructor

WHERE: HVCC Science Building
(Meet in the lobby on the first floor. If you arrive late, please find us in SCI 210/205.)

Get a Jump Start on College this Summer

This summer, Hudson Valley Community College is offering college-level courses at Troy High School for just $65 per credit hour.* Classes are taught by Hudson Valley faculty, and credit earned can be transferred to most colleges and universities.

INTERESTED? Contact your high school guidance office or call Hudson Valley’s Office of School Programs at (518) 629-8164.

STUDENTS FROM ALL LOCAL HIGH SCHOOLS ARE WELCOME TO TAKE THESE SUMMER COURSES BASED ON SPACE AVAILABILITY.

www.hvcc.edu/highschool

*Students also may be responsible for purchasing textbooks and/or other required materials.
PAYMENT IS REQUIRED IN FULL AT THE TIME OF REGISTRATION.

Refunds
A 100 percent refund will be given if a written request is received by the Office of Community and Professional Education prior to the start of the camp for which your child is enrolled. After the first class meeting, a 25 percent refund will be given once a written request is received. After the second class, no refunds will be given.

Computer Accounts
Attention, parents! When we register your child for Kids on Campus programs, a student record is created for them at Hudson Valley Community College. If they are a new student, after registration your child will receive two envelopes from the college. One will contain a username and the second a password. This username and password will allow a student to access the Hudson Valley Community College email and flexible registration system for online registration. If your child is returning and you no longer have their username and password, please call our office. We can reset the password and send both in the mail. Please keep these in a safe place. Students who enroll in a computer class this summer at camp will need these to log in to the computer each day. If you have any questions please do not hesitate to contact us at (518) 629-7339.

Required Forms and Records
Medical History and Consent Form - see page 23.

Immunization Records - Please submit a current copy of your child’s immunization record from your physician’s office or school. Records can be faxed to 518-629-8103. If your child is a returning camper records may be on file. If needed you will be notified with registration confirmation.

Adventure Release Form - required for Adventure Camp only

Concussion Acknowledgement Form - required for Athletics and Circus Camps only. Please refer to our concussion protocol which is available at www.hvcc.edu/kidscamps as well as copies of all required forms.

Scholarships
A limited number of scholarships are available for those who qualify. Scholarships are based on financial need. Funds are made possible by the Hudson Valley Community College Foundation. Scholarship forms are available at www.hvcc.edu/kidscamps

Program Age Guidelines
For your child’s safety and optimal learning experience, please honor the age requirements listed for each program.

Medication Policy
Children may receive medication during camp if the following procedures are followed:

- A licensed health care provider must order all medications, in writing (ex: physician, dentist). The written order will include child’s name, dosage and time to be administered, termination date, and the side effects.

- All medications must be in a pharmacy-labeled bottle or original manufacturer’s container.

- No medication is to be transported to or from camp by the student. A parent/guardian or their adult designee must bring medication to the nurse, trainer or camp staff.

- The parent or guardian must provide consent in writing for the camp to carry out the physician’s order.

Special Accommodations
Hudson Valley Community College is committed to providing an accessible education and supportive learning environment for all students. To help us meet this goal, all students with disabilities who require special accommodations must notify the Office of Community and Professional Education in writing, two weeks before their first camp begins, so that accommodations can be arranged. All information will be kept confidential.

Drop Off
Please drop off your child no earlier than 10 minutes prior to the start of their activity/class. Students arriving earlier will not be supervised and parents must accept full responsibility for their behavior and safety.
**KIDS ON CAMPUS REGISTRATION FORM 2019**

**Student’s Name:**

First  | Middle  | Last  | Age

**Date of Birth:** ________________ Sex (M/F): ________________ Grade Entering (Sept. 2019): ________________

FIVE REASONS TO CHOOSE KIDS ON CAMPUS

1. FLEXIBILITY AND VERSATILITY
Few other summer camps in the Capital Region have the choices we do. You can choose from full-day and half-day options and literally dozens of fun, educational subjects. We offer flexibility and versatility for your child.

2. PROFESSIONAL STAFF
It’s comforting to know that nearly every camp Hudson Valley offers is headed up by a professional educator. Elementary and secondary level teachers oversee camp counselors to give your children a top-notch camp experience.

3. AGE-APPROPRIATE CURRICULA
We make sure all of our camp programs are aimed at the appropriate age range. That’s why you’ll see Summer Academy camps broken up by grade level. First-graders don’t learn the same way middle schoolers do, and we tailor the program specifically to their needs.

4. AMAZING FACILITIES
Kids on Campus programs are held at the same facilities used by our college students. So, when your son or daughter attends an Athletic Camps, they’ll be using the same courts and fields as our student athletes. The same goes for our cooking facilities, computer labs and theatrical spaces.

5. A CHANCE TO MAKE NEW FRIENDS
Kids on Campus programs bring together children from around the Capital Region. Summer camp is a great chance to connect with other campers from around the region who have similar interests as your child.
